

This Land Should Not Be “Jurisdictional”

Stop EPA’s Regulatory Land Grab

The Environmental Protection Agency is attempting to expand federal authority over private property. If EPA gets its way, millions of additional acres of land could be regulated as wetlands under the Clean Water Act.

The governors and state entities of 34 states want EPA to withdraw the proposed rule and start over.

The Regulatory Integrity Protection Act (H.R. 1732) would halt this unprecedented land grab and require EPA to:

- Withdraw the proposed rule.
- Develop a new rule in consultation with state and local governments and affected groups.
- Ensure the new rule is based on better science and realistic economic analysis.

**Congress can
make that happen**

Pass H.R. 1732
