COMMITTEE RESOLUTION

Christopher P. Bertram, Staff Director

James H. Zoia, Democrat Staff Director

ALTERATION
FIRE PROTECTION AND LIFE SAFETY PROJECTS
VARIOUS BUILDINGS
PEP-0001-MU15

Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives, that pursuant to 40 U.S.C. §3307, appropriations are authorized for alterations to upgrade, replace, and improve fire protection systems and life safety features in government-owned buildings during Fiscal Year 2015 at a total cost of \$40,000,000, a prospectus for which is attached to and included in this resolution.

Provided further, that the General Services Administration shall not delegate to any other agency the authority granted by this resolution.

Adopted: **July 16, 2014**

Bill Shuster, M.C.
Chairman

PROSPECTUS - ALTERATION
FIRE PROTECTION AND LIFE SAFETY PROJECTS
VARIOUS BUILDINGS

Prospectus Number: PFP-0001-MU15

FY2015 Project Summary

This prospectus proposes alterations to upgrade, replace, and improve fire protection systems and life safety features in government-owned buildings during Fiscal Year 2015.

FY2015 Committee Approval and Appropriation Requested.....\$40,000,000

Program Summary

As part of its Fire Protection and Life Safety efforts, GSA is currently identifying projects in Federal buildings throughout the country through surveys and studies. These projects will vary in size, location, and delivery method. The approval and appropriation requested in this prospectus is for a diverse set of retrofit projects with engineering solutions to reduce fire and life safety hazards. Typical projects include the following:

- Replacing antiquated fire alarm and detection systems that are in need of repair or for which parts are no longer available.
- Installing emergency voice communication systems to facilitate occupant notification and/or evacuation in Federal buildings during an emergency.
- Installing and/or expanding fire sprinkler systems to provide a reasonable degree of protection for life and property from fire in Federal buildings.
- Constructing additional exit stairs or enclosing existing exit stairs to ensure safe and timely evacuation of building occupants in the event of an emergency.

Justification

GSA periodically assesses all facilities using technical professionals to identify hazards and initiate correction or risk-reduction protection strategies to assure that no aspect of our buildings' design or operation presents an unreasonable risk to GSA personnel, occupant agencies, or the general public. Completion of these proposed projects will improve the overall level of safety from fire and similar risks in GSA-controlled Federal buildings nationwide.

FY2015 Committee Approval and Appropriation Requested.....\$40,000,000

FIRE PROTECTION AND LIFE SAFETY PROJECTS
VARIOUS BUILDINGS**

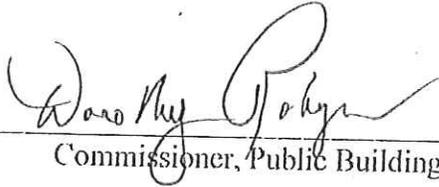

Prospectus Number: PFP-0001-MU15

Certification of Need

Over the years a number of fire protection and life safety issues have been identified that need to be addressed in order to reduce fire risk. The proposed program is the best solution to meet a validated Government need.
