The Honorable Sam Graves
Chairman
House Transportation &
Infrastructure Committee
U.S. House of Representatives
Washington, DC 20515

The Honorable Rick Larsen
Ranking Member
House Transportation &
Infrastructure Committee
U.S. House of Representatives
Washington, DC 20515

Dear Chairman Graves and Ranking Member Larsen,

I am writing to commend your introduction of the BUILD America 250 Act and to express Autodesk's strong support for the legislation.

The BUILD 250 Act would make important, much-needed investments in the nation's surface transportation infrastructure. Importantly, it also advances innovation in the way that infrastructure is designed and delivered through provisions that support digital infrastructure. Among them is the reauthorization of the Advanced Digital Construction Management Systems (ADCMS) program, which has already helped many state departments of transportation speed adoption of digital project delivery tools and practices. Continued support for these technologies will help maximize the impact of this legislation by improving efficiency and fostering innovation in transportation project delivery.

Thank you for your leadership on this important legislation for the nation's economic growth and prosperity. Please consider Autodesk a resource as you work to advance the bill in the months ahead.

Best regards,

Andrew Friendly
Vice President, Government Affairs
