The Honorable Sam Graves, Chairman
The Honorable Rick Larson, Ranking Member
House Transportation and Infrastructure Committee

Dear Chairman Graves and Ranking Member Larson:

On behalf of FP2 and its members, we appreciate your leadership in developing and introducing the BUILD Act. The bill's robust funding and emphasis on traditional surface transportation infrastructure, cost effective programs, and preserving our roads in a "state of good repair" is imperative to meeting the nation's infrastructure needs.

FP2 is an association focused on pavement preservation and recycling. Our members include the Asphalt Institute, National Asphalt Pavement Association, Asphalt Emulsion Manufacturers Association, Asphalt Recycling & Reclaiming Association, the International Slurry Surfacing Association and individual companies located across the country. The industry engages in pavement preservation and recycling work in virtually every state of the Union.

The pavement preservation and recycling industry focuses on decreasing the overall cost of maintaining road assets in better and safer condition by ensuring roads are maintained in a "state of good repair." The robust funding provided in the BUILD Act will enable agencies to properly plan and preserve their roads at a cost savings to the Federal government.

The bill's recognition that 80% of our nation's roads are in smaller and rural communities, the preservation of which is imperative to improving the overall condition of our nation's road network is refreshing. Funds available, through proposed grant programs to smaller more rural agencies will help facilitate welcome improvements for these communities and for commerce more generally.

We thank you for your work on the BUILD Act. I can be reached at rickc@cmservices.com.

Sincerely,

A handwritten signature in black ink that reads "Rick Church". The signature is written in a cursive, flowing style.
