

### Southwest Airlines Statement

“Southwest Airlines fully supports H.R. 6086, the ‘Aviation Funding Solvency Act,’ and urges its quick adoption. This important piece of legislation will guarantee pay for essential FAA workers, such as air traffic controllers and safety inspectors, and ensure the continuous stability of the national airspace system. The government shutdown that occurred in October and November placed considerable strain on our operations, Employees and Customers, and it cannot happen again. With another government funding deadline approaching, we need H.R. 6086 to become law sooner rather than later. Thank you for Chairman Graves and Ranking Member Larsen’s leadership on this important issue!”

-Bob Jordan, CEO, Southwest Airlines
