The Honorable Sam Graves

The Honorable Rick Larsen

U.S. House Committee on Transportation and Infrastructure

2165 Rayburn House Office Building

Washington, DC 20515

Re: In Support of the Build America 250 Act

Dear Chairman Graves, Ranking Member Larsen and Members of the Committee:

On behalf of the International Association of Movers (IAM), I offer our association's strong support for the *Building Unrivaled Infrastructure and Long-term Development for America's 250th Act (BUILD America 250 Act)*.

IAM member companies serve multiple roles within the household goods transportation industry, including arrangement, packing, loading, unloading, delivery, brokering and transportation. IAM member companies' roles in providing logistics and related support services are essential to the ultimate delivery of household goods to their final destination, be it in the US or abroad.

This important and comprehensive reauthorization legislation takes necessary steps to address freight fraud across transportation lines, appropriately engages transportation service providers (moving companies and connected industry representatives) and will assist in protecting consumers throughout their relocations and moves.

The consumer protection focused working groups, motor carrier entrant standards review process, enhanced registration requirements and updated complaint database included in the legislation are in line with the association's internal efforts to screen and protect the

moving public, and to help identify the range of legitimate companies operating within the household goods landscape.

Thank you again, and we look forward to engaging policymakers and stakeholders to assist in its passage.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Limperopulos", written in a cursive style.

Brian Limperopulos
President

About IAM

IAM is the household goods moving and forwarding industry's largest global trade association. With nearly 2,000 members, its companies provide moving, forwarding, shipping, logistics, and related services in more than 170 countries for household goods shipments.
