*"The only national motorcyclists' rights organization  
dedicated to on-street riders"*

May 19, 2026

The Honorable Sam Graves  
Chairman  
House Transportation and Infrastructure Committee  
U.S. House of Representatives  
Washington, D.C. 20515

Dear Chairman Graves,

On behalf of the Motorcycle Riders Foundation (MRF) and the millions of motorcyclists who travel America's roads every day, we write in support of the Build America 250 Act and to thank the House Transportation and Infrastructure Committee for its thoughtful inclusion of provisions important to the motorcycling community.

The MRF is especially appreciative that the committee included language prohibiting the profiling of motorcyclists. Riders across the country deserve to be judged by their actions and conduct, not unfair stereotypes associated with the type of vehicle they choose to ride. By addressing this issue in the legislation, the committee has recognized the importance of fairness and equal treatment for all roadway users.

We are also grateful for the reestablishment of the Motorcyclists Advisory Council. The Council has historically served as an important forum for communication between federal transportation officials and the motorcycle community. Reinstating this body ensures that the unique safety, infrastructure, and mobility concerns of motorcyclists continue to be heard and considered as transportation policy is developed and implemented.

America's motorcyclists represent a diverse and passionate community that contributes significantly to our nation's culture, economy, and transportation system. Every day, millions of riders share the road with other motorists, and policies that recognize and address the distinct needs of motorcyclists help improve safety and mobility for everyone.

The Motorcycle Riders Foundation appreciates the committee's leadership and consideration of these important issues within the Build America 250 Act. We look forward to working with the committee and congressional leadership to support final passage of this legislation.

Thank you again for your continued attention to the concerns of America's motorcyclists.

Sincerely,

Kirk R. Willard  
President, Chairman of the Board  
Motorcycle Riders Foundation
