“(A) TRANSMISSION PIPELINE FACILITIES
REGULATION.—Not later than 2 years after the
date of enactment of this paragraph, the Sec-
retary shall issue regulations for appropriate
methods of assessment of transmission pipeline
facilities under paragraph (3) that prioritize the
use of other inspection methods before, in tan-
dem with, or in lieu of, the use of direct assess-
ment, including internal inspection devices or
pressure testing, to provide a greater level of
safety.”.
