AMENDMENT TO THE AMENDMENT IN THE
NATURE OF A SUBSTITUTE TO H.R. 7776
OFFERED BY MR. MAST OF FLORIDA

At the end of title I, add the following:

SEC. 1. RELEASES OF WATER CONTAMINATED WITH CYANOBACTERIA.

(a) DETERMINATION.—Before releasing water from a flood risk management project, the Secretary shall determine whether the water is contaminated with cyanobacteria, based on tests conducted by the Secretary, another Federal agency, or the State in which the flood risk management project is located.

(b) NOTIFICATION.—If the Secretary determines under subsection (a) that water to be released from a flood risk management project is contaminated with cyanobacteria, the Secretary shall notify the public and affected governments of the contamination and planned release, and any potential effects on human health, before releasing the water.

(c) DEFINITIONS.—In this section, the term “affected government” means a State, local, or Tribal government with jurisdiction over an area that will be affected
by a release of water from a flood risk management project.
