The Honorable Nick J. Rahall II  
Ranking Member  
Committee on Transportation and Infrastructure  
2163 Rayburn  
Washington, DC 20515

Dear Chairwoman Boxer, Chairman Shuster, and Ranking Members Vitter and Rahall:

The National Ready Mixed Concrete Association (NRMCA) congratulates you on completing the conference of S. 601, the *Water Resources Development Act of 2013 (WRDA)* and H.R. 3080 the *Water Resources Reform and Development Act (WRRDA) of 2013* strongly supports the adoption of the Conference Report. WRRDA both reforms and authorizes the programs of the Army Corps of Engineers' (Army Corps) Civil Works programs related to navigation, flood risk management, recreation, infrastructure and environmental stewardship. NRMCA strongly supports this bill which provides much needed investment and reform to the nation's water infrastructure.

NRMCA was founded on December 26, 1930, and today represents more than 2,000 member companies and subsidiaries that employ more than 125,000 American workers who manufacture and deliver ready mixed concrete. The Association represents both national and multinational companies that operate in every congressional district in the United States. The industry is currently estimated to include more than 68,000 ready mixed concrete trucks.

The ready mixed concrete industry plays a vital part in our nation's prosperity and international competitiveness. Without ready mixed concrete many of the projects WRRDA authorizes would not be possible. WRRDA provides the nation with a much needed vehicle for economic growth and an opportunity to build the necessary infrastructure for the 21st century. It also offers an opportunity to lay the foundation for a built environment that will withstand future natural disasters. Specifically, NRMCA supports WRRDA's direction on the employment of resilient construction building techniques which will allow a property to resist hazards brought on by a major disaster and to continue

NATIONAL READY MIXED CONCRETE ASSOCIATION

900 Spring Street, Silver Spring, MD 20910 888-84-NRMCA Fax: 301-585-4219 Email: [nrmca@nrmca.org](mailto:nrmca@nrmca.org) [www.nrmca.org](http://www.nrmca.org)

to provide the primary functions of the property after a major disaster. The Army Corp's investment in resilient construction will help save lives and limit the need for expensive emergency rebuilding.

This bill will help ensure the Army Corps' ability to effectively expedite projects, prioritize investments, provide resilience, protect communities and maintain our nation's waterways, ports, channels, dams and levees. Finally, WRRDA will help create American jobs and ensure long-term economic productivity and quality of life enhancements that result from water resources infrastructure investments.

Thank you so much for your hard work on this critical legislation, and we encourage the House and Senate to adopt the Conference Report quickly.

Sincerely,

A handwritten signature in black ink that reads "Robert A. Garbini".

Robert A. Garbini, P.E.,
