June 6, 2022

Hon. Nancy Pelosi  
Speaker  
U.S. House of Representatives

Hon. Kevin McCarthy  
Minority Leader  
U.S. House of Representatives

Dear Speaker Pelosi and Minority Leader McCarthy,

On behalf of the membership of the National Association of Flood and Stormwater Management Agencies (NAFSMA), NAFSMA supports and urges Congress to enact the Water Resources Development Act of 2022 (WRDA). Keeping WRDA, H.R. 7776, on its two-year reauthorization schedule is critical to flood risk management throughout the nation.

NAFSMA asks that the House take up WRDA 2022 as soon as possible to keep the projects and policies carried out by the U.S. Army Corp of Engineers, in conjunction with its local, regional and state partners, moving forward to help the country address impacts of past extreme weather events and prepare to meet the challenges posed by future expected events.

NAFSMA also thanks the Members and staff of the House Transportation and Infrastructure Committee, and specifically the Water Resources and Environment Subcommittee, for all of their efforts to gather input and move this important legislation.

Please feel free to contact NAFSMA Executive Director Susan Gilson at [sgilson@nafsma.org](mailto:sgilson@nafsma.org) or 202-289-8625 with any questions.

Sincerely,

Susan Gilson, Executive Director

CC: Hon. Peter DeFazio, Chair, Transportation & Infrastructure Committee; Hon. Sam Graves, Ranking Member, Transportation & Infrastructure Committee; Hon. Grace Napolitano, Chair, Water Resources & Environment Subcommittee; Hon. David Rouzer, Ranking Member, Water Resources & Environment Subcommittee
